Goal pathways

Simulator median path with uncertainty band

Emergency fund

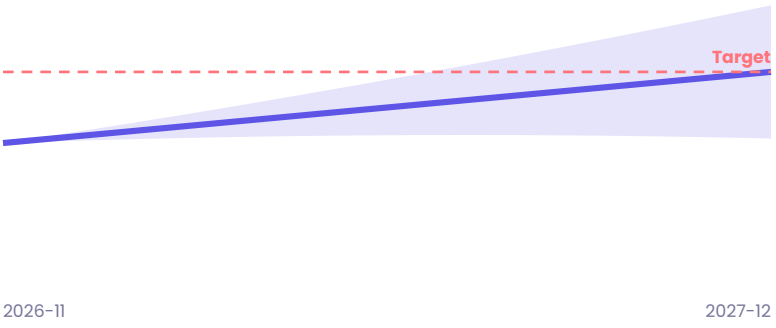
On track

Probability range

90% to 100%

Target $18,000 by 2027-12-01

Median completion: 2027-12-07



Shaded area: 10th-90th percentile | Line: median path | Dashed: target

House down payment

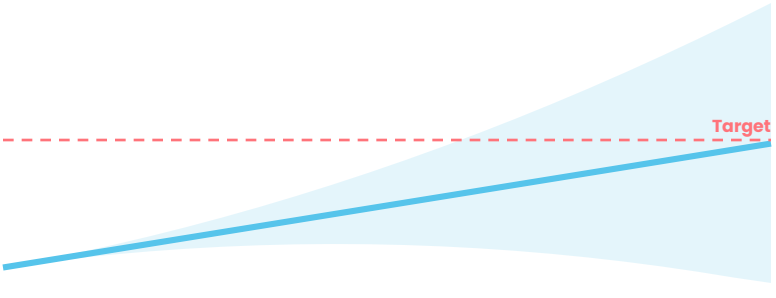
On track

Probability range

75% to 95%

Target $60,000 by 2030-06-01

Median completion: 2030-07-07



Shaded area: 10th-90th percentile | Line: median path | Dashed: target

Next car

Needs attention

Probability range

0% to 10%

Target $12,000 by 2029-01-01

Median completion: not projected

Shaded area: 10th-90th percentile | Line: median path | Dashed: target

On track, watch, and needs attention are planning labels based on probability ranges. They are not guarantees.

Suggested focus

Organized by the level of attention each goal may need

These are planning prompts based on stored simulator ranges. Choose what fits your priorities.

MAINTAIN

Emergency fund

Keep monitoring Emergency fund and preserve the assumptions behind its current plan.

90%–100%

CURRENT RANGE

MAINTAIN

House down payment

Keep monitoring House down payment and preserve the assumptions behind its current plan.

75%–95%

CURRENT RANGE

EXPLORE

Next car

Explore a higher savings scenario or a later target date for Next car.

0%–10%

CURRENT RANGE

Look ahead

Keep tracking the same goal range and review new Copilot activity next quarter.

Quarterly recap

What went well

House down payment probability range was 75% to 95%, compared with 39% to 59% previously.

What needs attention

No larger evidence-backed setback was identified in the stored goal ranges.

Largest change and why

House down payment probability range

Previous: 39% to 59%. Current: 75% to 95%. The midpoint was 36 percentage points higher. The saved monthly savings scenario changed.

Look ahead

Keep tracking the same goal range and review new Copilot activity next quarter.

Next steps

1. Review the largest change and decide whether the current goal plan still fits.

Evidence from consecutive quarters

2026-Q2 | House down payment probability range: 39% to 59%
2026-Q3 | House down payment probability range: 75% to 95%

Probability ranges are educational estimates, not guarantees. FinVantage suggests options and does not move money.
